

DehatiAI × Telenor Khushhaal Kisaan

Executive Partnership Pitch Deck & Strategic Proposal

Transforming Rural AgriTech in Pakistan through Next-Generation AI & Offline Connectivity

Target Audience: Executive Leadership, Head of VAS/Agri, & Digital Financial Services Team at Telenor Pakistan / Khushhaal Kisaan.

Objective: Secure strategic B2B enterprise partnership, technical integration with Telenor infrastructure, and joint subscriber monetization.

Slide 1: Title & Executive Summary

Header: Revolutionizing Digital Agriculture in Pakistan

Subtitle: DehatiAI — The Next-Generation AI Engine for Telenor Khushhaal Kisaan

- **Vision:** Empower 25+ Million Pakistani Farmers with 0ms Offline AI Advisory, Smart NPK Calculations, & Real-time Disease Diagnosis.
- **Core Value Proposition:** Upgrading Khushhaal Kisaan from legacy IVR/SMS broadcasts to an **Offline-First AI Powerhouse**, driving subscriber retention, ARPU growth, and Easypaisa micro-loan disbursements.

***Executive Hook:** Telenor Khushhaal Kisaan commands the trust of rural Pakistan. DehatiAI provides the ultra-modern AI technology stack to monetize and scale that trust at a realistic impulse price point.*

Slide 2: The Problem — The Silent Crisis in Rural Punjab

Header: 62% of Pakistan’s Population Relies on Agriculture, Yet Farmers Lose 40% Crops Annually

- **The Challenge:** Existing advisory channels are one-way broadcast systems. Farmers need **instant, interactive, local-language** answers even when offline.

Slide 3: The Solution — DehatiAI (■■■■■■ AI)

Header: Pakistan's First 4-Pillar Offline-First Agricultural AI Engine

- **0ms Latency Local Search:** 110+ Pre-packaged Urdu/Punjabi FAQ database running inside IndexedDB (`dehati\_offline\_v2`).
- **Trilingual Nastaliq UI & Voice:** Full RTL support with voice recognition tuned for Punjabi & Urdu phonetics (`correctUrduAgriPhonetics`).
- **PyTorch ResNet-50 Vision Engine:** Instantly diagnoses crop diseases from camera photos with chemical & organic dosage recommendations.
- **5 Smart Agri Calculators:** NPK Fertilizer, Weather Spray Windows, Profit/Breakeven ROI, Certified Variety Seeds, and Solar vs. Diesel Tube Well ROI.

Slide 4: Strategic Fit — Why Telenor Pakistan Needs DehatiAI

Header: Unlocking Unprecedented Value for Telenor's Rural Ecosystem

Strategic Metric	Current Legacy System	With DehatiAI Integration	Impact on Telenor KPI
Subscriber Engagement	1-way daily SMS/IVR call	Interactive 24/7 Voice & Chat AI	+350% Monthly Active Usage
Network Resilience	Fails in zero-signal areas	100% functional offline (PWA)	Zero churn due to connectivity
VAS Monetization	Basic daily subscription	Premium AI tier (PKR 10/week)	High conversion & steady ARPU
Easypaisa Synergies	Manual micro-loan evaluation	Verified land & crop input data	Derisked Agri-Credit Portfolio

Slide 5: Proprietary Technology Stack

Header: Production-Tested Enterprise Architecture (30,500+ Lines of Custom Code)

■ FRONTEND (React 19 PWA) ■

■ Vite 8 • Workbox SW • Noto Nastaliq Urdu • IndexedDB 0ms Engine ■

■ (REST / SSE Stream)

■ BACKEND API (Node.js 20 / Express) ■

■ Rate Limiting • Helmet Security • JWT • Anthropic Claude 3.5 Sonnet ■

■ (3-Tier Failover)

■ DATABASE & ML INFERENCE ■

■ PostgreSQL (Railway) → Supabase → In-Memory → PyTorch ResNet-50 ■

Enterprise Reliability: 3-tier database failover guarantees 100% uptime, even during cloud provider outages.

Slide 6: The 5 Smart Agricultural Calculators Suite

Header: Data-Driven Decision Making Tailored for Punjab Extension Standards

1. ■ **NPK Smart Fertilizer Planner:** Exact bag recommendations for DAP, Urea, SOP, and Zinc based on crop growth stage & soil type.
2. ■■ **Weather-Aware Spray Calculator:** Connects with live Open-Meteo data (<15 km/h wind & <20% rain check) for 35 Punjab districts.
3. ■ **ROI & Profit Estimator:** Calculates yield profit and minimum selling price per Maund (40kg) linked with live Mandi snapshots.
4. ■ **Variety-Recommendation Seed Calculator:** Recommends certified seed varieties based on sowing window & soil salinity.
5. ■■ **Solar vs Diesel Tube Well Calculator:** Analyzes pipe delivery flow rates, AEDB solar kW sizing, and 60% Punjab Govt subsidy payback.

Slide 7: Telenor Synergies & Integration Touchpoints

Header: Seamless Technical & Commercial Embedding into Khushhaal Kisaan

```
graph TD
    User([Farmer / Subscriber]) --> SIM{SIM Auth}
    SIM -->|Auto-Login via Header Injection| App[DehatiAI PWA Portal]
    App --> Chat[AI Voice & Text Assistant]
    App --> Calc[5 Smart Calculators]
    App --> Scan[ResNet-50 Disease Scan]

    App -->|Input Data| EP[Easypaisa Micro-Finance Engine]
    EP -->|Instant Approval| Loan[Agri-Input Micro-Credit]

    App -->|Weekly Charge PKR 10| Carrier[Telenor Direct Carrier Billing]
```

- **Direct Carrier Billing (DCB):** Impulse weekly airtime deduction (PKR 10 / week = ~PKR 1.4 / day).
- **Easypaisa Integration:** Input calculations automatically feed loan eligibility metrics to Easypaisa Agri-loans.
- **USSD/IVR Fallback:** High-priority query routing for legacy feature phone users via Telenor 7272 helpline.

Slide 8: Realistic Financial Model & Revenue Share

Header: Realistic & Ground-Truth Commercial Model (PKR 10 / Week = PKR 40 / Month)

- **Impulse Pricing:** PKR 10 / week (~PKR 40 / month per user).
- **Target Base (Year 1):** 200,000 Paid Subscribers (conservative 2% conversion of Telenor's 10M base).
- **Annual Gross Revenue: PKR 96,000,000 (\$342,000 USD).**

* Revenue Split Proposal: **60% Telenor Pakistan	40% DehatiAI Platform**.
--	--------------------------

--

At 200,000 subscribers in Year 1, Telenor nets PKR 46.3 Million (\$165,000 USD) in pure high-margin VAS profit with zero capital expenditure or operational cost.
--

Slide 9: Implementation Roadmap

Header: 90-Day Deployment & Rollout Schedule

■	Month 1	■	Technical Integration & Telco Direct Carrier Billing	■
■		■	• API Handshake & Header Enrichment setup	■
■		■	• Easypaisa SDK integration	■
■	Month 2	■	Beta Pilot in 5 Key Punjab Districts	■
■		■	• Pilot in Multan, Khanewal, Vehari, Bahawalpur, Sargodha	■
■		■	• A/B testing IVR push vs PWA engagement	■
■	Month 3	■	Nationwide Launch & TVC / SMS Blitz	■
■		■	• Full Khushhaal Kisaan app & SMS integration	■
■		■	• Joint press release & Punjab Extension endorsement	■

Slide 10: Call to Action — Next Steps

Header: Partnering to Build Pakistan's Largest AgriTech Ecosystem

- **Proposal:** Execute a 3-Year Exclusive VAS & AI Integration Contract for Telenor Khushhaal Kisaan.

- **Immediate Action Items:**

1. Technical Sandbox testing (`api.dehati.pk` / Telenor API Gateway).
2. Signing of non-binding LOI & Revenue Share Term Sheet.
3. Commercial pilot launch across 50,000 farmers in South Punjab.
